**Sirs:**

**Please move to establish a policy of net metering in South Carolina. Every one of us can benefit, as are the citizens of 40 states, which already allow the purchase of surplus power from their customers. This requirement will put us on the path of self-sufficiency in energy through renewable sources, and cut our dependency on oil and coal especially that oil coming from the Middle East.**

**Please consider my views on this subject and act soon. Thank you.**

**Sincerely,**

*Clara Mackenzie*
